DATE	TIME	DISCIPLINE	NOTES SHOULD BE SIGNED WITH NAME AND TITLE
09/10	2200	NSG	<p>C/O's called requesting exam of I/M who was c/o testicular pain, being held in interview room - double-cuffed due to pre-shoulder injury. C/O's advise had been found w/ contraband earlier & had to be Q.T.B. I/M states incident occurred @ ~ 9:30 am & was cuffed, arms behind back, causing shoulder "dislocation" (r) & "cracked ribs" l. lat. from being kicked, l. elbow pain (lat. epicondyle), loose teeth from being punched in mouth, l. eyebrow contusion from being struck. Refuses testicular exam but will take b/p v. Advised has Ct. on Wed. & is testifying against DOC staff, thus fears reprisal & for his safety, req. to be moved to infirmary.</p> <p>O. I/M in NAD, appears in no discomfort until examined. Skin warm & dry, no ecchymosis over rib cage, clavicle @ acromion/epicondyle. Has small hematoma r. lower lip consistent w/ bite trauma also left upper lip - much smaller & no signs of bldg. Tender over clavicle to palpation but no mobility, signs of fx, ecchymosis, crepitus. Tender to palp. over r. acromion, biceps, clavicle but appears to be exaggerating sx as c/o pain in areas not congruent w/ mech of injury. Ind. rotation - no crepitus, & w/ range & min ext rotation - cuffed d/l - unable to conduct complete exam. Teeth tender @ r. upper incisor - l. upper front tooth. Hematoma on lip (lower r.), sm. abr. upper l. lip, l. nose etc. A. trauma as above, wishes to go to infirmary - not nec. medically but can bring up "safety" issue w/ DOC. P. Will give extbx Motin. Monitor condition. Lt Turner</p>
